## Think-ets

Think-ets is an educational and fun-filled game using adorable tiny treasures from around the world that inspire creativity and test memory. Think-ets is an at-home game, a travel game, a party game, a storytelling game, a camping game – perfect for children and their families.

Kids will love to collect, connect and create with Think-ets. There are so many games you can play using these trinkets – and, guess what? Think-ets even stimulate your imagination and increase brainpower!

Each of the games designed around Think-ets is ideal for two or more people, ages 8-108+, yet younger kids like them too. (Just don't let the really young ones get near them as they will want to put the tiny trinkets into their little mouths, and we all know that that's not safe!)

You can read more about how the game is played [here](#).

Samantha is 5.5 and she loves to play with them. We sit together and she tells me stories about each piece. It really is a lot of fun. Plus they come in an organza bag so you can take them with you on the go.
