Think-ets are creative fun

Think-ets is a deceptively simple toy — a bag full of little trinkets. But the trinkets are the jumping off point for creative brain games that can be played anywhere — making them perfect for cars, planes and restaurants.

Think-ets comes in a sheer pouch. Each pouch contains 15 trinkets from around the world.

The Think-ets package comes with the trinkets and 10 suggested game variations. What's Your Story? begins with player one pulling a trinket out of the pack and starting a tale based on it. Then a second person pulls a trinket and he must weave that into the story created by player one.

Other games include Who's Last? and What's Missing? But you're not limited to the 10 suggested games. You can just make up your own.

Think-ets has received a number of awards, including a 2007 Creative Child Award of Excellence, The Toy Man 2007 Award of Excellence and the Toy Man Editors Choice Award. It's also on the 2007 Dr. Toy Worthy of Mention list.

Think-ets lists for \$12.99. They are available at www.think-a-lot.com or by calling 303-449-2737.
